### Guidelines for Non Food Stalls

#### Stall construction

1. Any ropes or pegs used must be placed and clearly identified to reduce the risk of slips trips and falls.
2. Stalls must be placed and constructed so as not to create a nuisance to event patrons or other stall holders.
3. All portable generators used are to be adequately muffled so as not to cause a nuisance to patrons. Excessive noise from the stalls is not permitted. Generators must also be protected from event patrons and other stall holders.
4. Glass containers are discouraged due to the risk of breakages and injuries that may result from broken glass.
5. All stall holders must ensure they leave there area as they found it clean and tidy.
6. Adequate arrangements shall be made for the storage and daily or more frequent removal of garbage generated inside and outside the stall.
